PETER MUSILA CV

Embu, Kenya | Tel: +254 719443774 | Email: musiladev@gmail.com **LinkedIn:** linkedin.com/in/peter-musila-b38597215 | **GitHub:** github.com/peter-kiilu

---

Professional Profile

Performance-driven **Full-stack Software Engineer and Designer** with a proven track record of building scalable web applications using **React (TypeScript), Flask, and Python**. Expert in designing clean architectures, developing production-ready solutions, and translating complex business requirements into high-efficiency technical implementations. Passionate about optimizing system performance and staying aligned with cutting-edge industry standards in **Cloud-Native and Distributed Systems**.

Education

Bachelor of Science in Information Technology

University of Embu, Kenya | Sept 2022 Graduation: Sept 2026

- **Coursework:** Software Engineering, Artificial Intelligence, Data Structures, Database Systems, Web Development, Cybersecurity.
- **Honors:** Innovation Leadership Recognition – 2024.

Kenya Certificate of Secondary Education

Matheani Secondary School, Makueni | 2015 – 2018

- **Grade:** B Plain.
- **Extracurricular:** Played Football Metropolitan.

Kenya Certificate of Primary Education

Kiangini Day and Boarding Primary School, Makueni | 2006 – 2014

- **Points:** 389 Marks.
- **Extracurricular:** Played Football to Counties.

Certifications

- **Exploratory Data Analysis** – Martial Jenga Labs | Issued Jan 2025.
- **Data Preprocessing, Cleaning, Wrangling & Presentation** – Martial Jenga Labs | Issued Jan 2025.
- **Introduction to Programming Using Python** – Martial Jenga Labs | Issued Jan 2025.

Skills

Hard Skills (Technical Expertise)

- **Languages & Frameworks:** Python (Advanced), Javascipt and React (TypeScript), Flask, PostgreSQL, MongoDB and SQL-based systems.
- **Cloud & Infrastructure:** Cloud-Native Development (Docker, Kubernetes, CI/CD), Distributed Architecture.
- **Systems & Data:** System Design, Data Preprocessing & Cleaning, Exploratory Data Analysis (EDA).
- **Core Disciplines:** Software Engineering, AI/ML, Data Science, Cloud Computing.

Soft Skills (Leadership & Strategy)

- Leadership, Team Collaboration, Problem Solving, Critical Thinking, Public Speaking, Project Management.

Work Experience

Product Developer – MarketForce | [July 2024 – February 2025]

- **Engineered** scalable digital products aligned with business requirements using React and Flask.
- **Implemented** distributed architectures and participated in high-level system design discussions to improve platform modularity.
- **Optimized** cloud-native development workflows using Docker, Kubernetes, and CI/CD practices for production readiness.
- **Collaborated** with cross-functional teams (Engineering, Design, Product) to deliver user-centric features.
- **Debugged** and performed performance tuning to enhance product stability and user experience.

ICT Support Officer – University of Embu | [May 2025 – August 2025]

- **Managed** critical ICT infrastructure, providing system maintenance and advanced network troubleshooting.
- **Streamlined** software installation and hardware configuration protocols to ensure 99.9% operational uptime.

- **Resolved** high-priority technical issues for staff and students, facilitating smooth day-to-day campus operations.

Leadership & Community Involvement

Founder and Leader– Responsible Computing Young Innovators Club | 2023 – Present

- **Spearheaded** community-driven initiatives in ethical AI and responsible computing.
- **Mentored** student developers in building socially responsible technology solutions.
- **Boosted student engagement by 60%** through the coordination of training sessions and innovation challenges.

Member – Google Developer Groups (GDG) on Campus | 2022 – Present

- **Co-organized** major campus tech events, including the **THiNK Botathon** (AI/ML) and **ICP Hubs Kenya** (Blockchain).
- **Facilitated** the Moringa School Cybersecurity Bootcamp to strengthen student security awareness.

Volunteer Experience

University Representative – Tech Conferences & Exhibitions | 2022 – Present

- **Represented** the University of Embu at national and regional innovation events, pitching student-built projects and emerging tech initiatives.
- **Established** strategic partnerships with tech institutions and startups for collaborative innovation, **KICD** and **KNRF**.

Achievements

- **Innovation Leadership Award** – University of Embu, 2024.
- **Organizer Recognition** – THiNK Botathon ML/NLP Hackathon, 2023, 2024, 2025.
- **Participant** – ICP Blockchain Hackathon Kenya, 2023.

Languages

- **English** – Fluent.
- **Swahili** – Native.
